This is the title of a bondsome volume, written and compiled by Wm. Astrays and Le. E. Hall. It contains memoirs of eminent blind authors; achievements of the blind in the learned professions, in industrial pursuits and in poetry and music. The book is well written and will be read with interest by all clauses. Mr. Ariman will call upon our citizens to pirchine copies and us hope he will meetwith abundant sympathy and material aid.

The Cheoge Times, while pitying our ignarance, kindly takes upon itself the task of instructing us to the meaning of "Popular Sovereignty," as expounded by the latest and most approved "Democratic" authority. We cannot be sufficiently thanful to that journal for its profier of advice, though we can but suspect that, while offering to lead us aright, it is merely engaged in the attempt to humbug and bambonale its readers. Be that as "It may, we do not put so much faith in its teachings that we surrander well matured opinions, upon the strength of its bare assertion; on the contrary, we shall undertake the task of instructing our

"Sonatter Sovereignty" is the invention of Gen. Case, the veteran Michigan doughface, It was conceived by a columntion of its author's well known free soil opinions with the Calnounism, which, at the date of the General's last momination for the Presidency had become, for the first time, an Important element in our national politike. The docrine, as promulgated in the celebrated letter to Mr. Nicholson, was this: "Congresslass the power, more in incrpolient. The management of the title people the squatters—themselves, without congressional or other governmental with the people design gaw. That the designation of the title people of the party was unaffectory to the sections of which it was the na anow convoiced. and all at once, under Mr. Dougras' dictation and the patronage of the now defunct Pierce. Administration, "squatter sovereignty" was preached by every political spouter, Mr. Dougras among the number, in the North and "popular sovereignty" (mark the distinction) became vastly popular at the South. So sell did the Northern Democrats believe that their view of she power given to the people by the Kansas-Nebraska act was the correct one, that their leader, Gen. Gass himself, when the Sonats vote was taken upon the bill, congratulated himself and his fellow Senators upon the triumph of "consister sovereignty"—the interpola-

himself and his fellow Senators upon the triumph of "spassive sovereignty"—the interpolation into the Democratic creed, of which
he was the author. With the real
meaning of that bill still undefined, the

people of the country; and we roundly assert that
there was not a newspaper or an orator in the

under the operation of the bill, this people of

stand between the actual islanbitants of the Territory and the general government, delying both. And thus far this government has found itself powerless to cope with them. At this moment a surpendous fraind is on foot to introduce an illegal vote and to mility a legal one, and the Cabinet at Washington frame the frame! And to make sure of plantations for slave drivers, all the trust lands of the Indiana are rashed into market, and the reserves are in secret parcelled out to the oppressors of the people. And the Clobest at Washington issue them foot, and the Clobest at Washington issue them foot, on the contract the infamy!

Gov. Geary has tendered his resignation.—Why? "Seconse being unantiained by government, his drafts dishenored and the troops withdrawn, the position was no longer one in which he could serve the people or act creditably to himself.

Last September, President Pierce was sorely troubled at the condition of things in Kannas. Last September, President Pierce assured the writer that he had selected a man to send to Kannas who would administer patico between the contending parties. President Pierce compained hus September that he could not helieve either faction in Kannas; each allegfug against the other precisely the same crimes.—He have we had not may party hiss whatever—a truly hadional man, knowing ac south, he north, no cast, no west. The testimony of such a man would the unimposchable. President Pierce mid, moreover, that he was determined that the people of Kannas should have one fair election, if it required for whole infiliancy force to secure it! The people of Kannas are about getting this fair election how, sero-thirds of them being certained in advance of their coming in, and the votes of a milicient number on the rest being neutralized by the introduction of an illegal vote from Missouri. And the cabinet of Mr. Buchanna sy that this is all right. But what will the good with the testimony of Mr. Pierce's unique powers.

political annihilation will serve their purposes. And these and such like, are the custodians of the internal peace of the country, the directors of its governmental judgment, and the tead-

traion. Such are the counsellers of James Buchanan. The nunderset of Estrour has had an audience with the President. And the worst situation of the peace of Kansas, Calhoun, Surveyor General of Kansas, has had an audience to and the whole land of noble brothers have had access to the sar of the President—and the fate of Kansas is scaled unless its people date to imitate and emulate their fathers. The colonists had not one-tenth the justification for separating from, or resisting the Mother Country which the oppressed and plundered elitisens of Kansas have to day for reclifton against their own Government. It is idle to point to the hallot box for recires. The people of Kansas have no ballot for the country of the country of the country of the father of Kansas, the prigrate of their highes, Nothing now is left the clittens of Kansas but an appeal to the State Sovereigniles and that falling—an appeal to the Iribunal of last resort—to God and their own right arms if

It will enable them to case at once upon the occupation of the route, under the protection of Gosta Rica, which, it is understood, agrees to pay to Rivas, who represents Nicaragan in the mater, \$400,000, for losses sustained during the war and as a compensation for the territory which is coled. This amount is one-half the loan which is to be negotiated in this city, for Costa Rica, by the new company in payment of the privileges and rights which she has agreed to secure to them in connection with the transit:—the loan will probably be made by the company itself.

This arrangement, as will be seen at a glance, is one of the utmost importance to this country as well as to the States immediately concerned. It will put an end to the bloody and disastrous contests which have as long characterized the attempts at government which various parties in Nicaragus have made, and will restore need, order and prosperity to those fertile and productive regions. They have the tirdly a judged for non-where in town, and are builty sugaged to printing and offeculating documents, gotten up in the highest style of the art, accusing the Democrate of the State with all the crimes known to the code, and the Darry Reel with all the size that it would be say for a party to commit. One of these precious documents is a cowardly, candalous and lying compliation, against several persons who are prominent in the party in the State, algoed 5, is. Nooman, and addressed to the President. It consists of four pages, closely printed, and the President will doubtless read it word for word 17, after everybody in the city has done that same thing. The oratory documents are of a smilar charged, but shore sweeping and general in the marter of charges, and not signed by any one. It gives as references, Gen. Dodge and Basilet Wells, ir. A gentleman offered the latter, in my presence, \$1000, if he Wells) and General bodge would sign it, and he refused. He rubbed his hands, grinned, sided off and left the company. These are probably the dying threes of the rotten cabal that have controlled the faderal appointments during the last four years, and who have eternally I-field themselves, so far as the party all home are concerned, and whose only hope is to defraud and deceive the Administration by the same system of lying by which they so essentially and new-elemingly damed poor Pierce in our State. If we are not very much missaken, Mr. Buchman will not allow such accountrellem to Itil him and the party, by striking down the only supporters of immelf and party in the State.
